Child-Friendly
Hospital
Foundation
and Buzzy®

As a nonprofit promoting the application of child-friendly care, one of the primary requests when we first started sending care packages and offering trainings was: "do you have any Buzzy®?" This unique question was not unfamiliar to us at Child-Friendly Hospital Foundation.

Buzzy® is a trademark device that is well renowned in the healthcare world. This non-pharmacological pain control device, operates on the principals of the Gate Pain Control Theory. Using vibration, (his "buzz"), and cold, (via his frozen wings), Buzzy® engages the nerve fibers in a way that can help "interrupt" a pain signal in route to the brain.

This outstanding system has decreased the pain of injections for patients of a wide-range of ages all over the United States and Internationally.

Because CFHF is passionate about supporting a "happy healing" for children and families, we felt Buzzy® was a perfect partnership.

We are privileged to be the first public charity to collaborate with Buzzy®. This union makes it easier for us to offer this device to the hospitals, clinics and home providers in need.

Along with providing the device to organizations, we are able to meet a growing need within our community. With the COVID-19 outbreak, CFHF began offering virtual intervention and counseling. Through this avenue, we are able to provide training for child-friendly care with the use of Buzzy®. This applies to pediatric phlebotomists, RN's and many children and families who are now advised to implement their clinical shots at home.

If you are a healthcare provider that feels the use of a Buzzy® and/or training would contribute to the well-fare of your pediatric patient, please fill out the form below and return it to CFHF.

All applications are considered. However, CFHF completely is funded on donations, so distribution of the Buzzy and accessories is based on CFHF'S resources.

To contribute to our efforts and put more Buzzy®'s in the hands of deserving organizations, please choose from one of the simple donation options on our website, THANK YOU!
